

WESO 2020 Photon Phun Reflection Room Supervisor's Script

[Lights in room are dim. Flashlight is on and focused. Door is closed]

Welcome to the Photon Phun reflection relay room. You will have 2 minutes to illuminate as many targets as possible using all three of your mirrors. Mirrors must be held at least one foot apart and light must pass through all 3 before hitting the target. You may hit the targets in any order you wish but you may not repeat a target. To score, your team will need to illuminate a target, then wait for the supervisor to count "1, 2, 3, NEXT" aloud. You may not touch the flashlight nor enter the taped off area around it. Once the timer starts it will not be stopped.

The six targets are located [pointing] here (1), here (2), ... and here (6).

You now have one minute to plan. If you wish to start sooner let me know when you are ready.

[1:00 minute]

Ready. GO.

[2:00 minutes]

[timer alert]

STOP.
