

## Sample Vocabulary List

### Read It; Build It

The following words and categories are not fully representative of all the possible ways objects can be described or instructions written.

Please be sure to add to this list as teams work to describe objects or build instructions for practice.

Again, the goal is to help teams build their confidence reading, understanding, and following instructions.

#### SHAPES

1. Two dimensional shapes – Circles, Squares, Triangles
2. Three dimensional shapes – Spheres, Cubes, Pyramids
3. Curvatures – Bends, Twists, Curves
4. Lines – parallel, perpendicular, segments

#### DIRECTION

1. Cardinal – North, South, East, West
2. Relative – In, out
3. Diagonal – NE, NW
4. Facing – Left, Right

#### LOCATION

1. Prepositions – Above, Below, Behind

#### INSTRUCTION

Connect, Attach, Place, Face, Combine

Samples (non-event related examples):

- |    |                        |                |           |    |                    |
|----|------------------------|----------------|-----------|----|--------------------|
| 1) | Push wheelbarrow north | 2)             | Look West | 3) | Examine South wall |
|    | 4)                     | Open East door |           |    |                    |
