

Question:

Answer:

Do kids need to memorize color codes, or would a cheat sheet be provided?	Most of the pacing guides provide but it increases the speed and efficiency if they memorize.
Would students be asked to write a code on Blockly and upload on the iRobot during competition?	No not planning to use any codin.g, planning to use only color codes
I only see grade 2 pacing guide, will grade 3 be using the same?	Actual event based on Grade 2 pacing guide
For section A, how much about software programming do we need to cover?	For sec A, we are covering simple things like what is a program. More information can be found in the Event Description.
What kind of markers will be provided on the day of the competition?	The same markers as in the kit
Could you provide a link to where we can buy extra ones?	Please see the Event Description and the list provided to the school.
Where do I pick up our information and Ozobot.	Please contact your school's head coach.
Can students bring a ruler with them? Would they be allowed to use if they bring with them to draw line...for ease? Thanks!	There will not be a need for rulers, the dark black lines will already be provided
what size paper should we be using /getting	A4 size standard size
What materials would be provided? A ruler to draw lines?	Kit comes with basic marker and Ops. guide, no need for rulers
Charter schools in general, but South Arbor Charter Academy especially has very wide range of locations that students come from and sharing one kit between 2 and 3 rd could be challenging, so could it be possible for our school to have one kit for each grade, please? Thank you!	Sorry. We are only able to provide 1 ozobot per school. If you need another you can ask your PTO or school to purchase one for you.
Section C: what software/app will they use for their code or will they just use paper and markers?	Paper and markers
When will schools get the ozobot?	You will get the ozobot and other materials from your head coach in the next few weeks
