

Which event are you asking about?	What is your event-related question?	Answer
iCompute	Can we get previous test questions?	Sorry, we do not provide previous years' test questions
iCompute	Is it possible to have more than 2 students?	No. One team per grade per school of up to two students.
iCompute	What is the difference in expectations for 4th vs 5th grade event?	5th graders will be expected to program with slightly more complexity than 4th graders. For instance, while both 4th and 5th graders will be expected to understand IFs and loops, 5th graders might be expected to use nested commands.
iCompute	Can you share the website address?	<a href="https://emunix.emich.edu/~knarayana/iCompute/index.html">https://emunix.emich.edu/~knarayana/iCompute/index.html</a>
iCompute	So we can have 2 4th graders and 2 5th graders?	Yes.
iCompute	Are there differences for part 1 and part 2 for 4th vs 5th grade?	As for the programming complexity, the 5th graders will be expected to answer slightly more complex questions, but answers will come from the same resources.
iCompute	Are the primary resources enough to answer the questions?	Yes.
iCompute	Are there any materials Provided to School for iCompute?	No.
