

Which event are you asking about?	What is your event-related question?	Answer
Map Reading	Any best practices and how long or how frequent are best ways to practice for kids	Once a week should be enough. Maybe 2x a week closer to the tournament.
Map Reading	Just confirming - 20 questions - 2 questions per map - 10 maps?	Yes
Map Reading	Just to confirm, 2nd grade does not need to know topographical maps?	No topographical maps for 2nd or 3rd grade
Map Reading	Are there any videos or YouTube links that can help visualize how the event looks?	We do not record the event and the event is very specific to WESO.
Map Reading	What is the scope for second graders?	Basic map skills. Understanding legends and symbols. Spelling does not count if I can understand what they are communicating
Map Reading	It sounds like this will be in a classroom and the maps will be presented around the room on student desks. Is this accurate?	Yes
Map Reading	What type of calculator is provided for distance calculations?	Very basic. Nothing fancy.
Map Reading	Will kids be prodded to move on if they are stuck with a question on one map?	Yes, questions starts sites are different so that they are not all using the same map. If they are stuck on a map I will encourage them to move on.
Map Reading	How many kids are usually competing together at a single time slot?	2 kids per team, no more than 5 teams in a room
Map Reading	Will the units be considered? KM Vs Miles?	You should teach them both because international maps use km. Students will not do conversions.
Map Reading	Will there be any climate or weather maps?	Yes. Snowfall, rainfall etc.
Map Reading	Would it be possible to see previous years' question list? It might help kids get a sense of how much to read and what kind of questions will be there.	No we do not release old tests. The detailed event description has sample questions.
Map Reading	Will the maps be labeled/signs are shown or the students will have to read each title.	They will have to read each title. All maps will have a title.
